

October 2009 Construction

**WE PASSED INSPECTION AND RECEIVED OUR
CO “Certificate of Occupancy.”**

The hard part is over and there is still some more minor work to do, but volunteers are taking a break and will soon return to take down the old staircase. Thank you to all our hardworking volunteers who put in over 12,000 volunteer hours. We had over 180 different volunteers contribute their skills and talent for this project. We can be proud of our volunteers and proud of our new building.
